

# Converting a Propane Grill to Natural Gas

Written By: Lou

## SUMMARY

Propane tanks cost \$20 to refill, require a trip to the store, and always run out right in the middle of big family cookouts. This guide will show you how to convert your propane grill to natural gas. It will show you how to install a gas line, too.

### Step 1 — Converting a Propane Grill to Natural Gas

- Remove burner tubes.
- Drill valve tips to 1/16 inch.
- Replace propane tank with natural gas.
- Done!
- See complete how-to video at HowToLou web site:
